

**HAIR ANALYSIS UK**  
TARGETED NUTRITION AND SUPPLEMENTS

# No More Fatigue

Get your life back by discovering what could be preventing you from feeling better right now - and what could be the root causes of your symptoms!

If you currently battle with your weight, energy, brain fog, mood, hair, skin, or ANY other health problem – this simple hair test will tell you what's really happening in your body..

## What is Hair Mineral Analysis?

Hair mineral analysis is a screening tool to measure the mineral and toxic metal content of your hair. The mineral content of your hair accurately reflects the mineral content of your body's tissues. If a mineral DEFICIENCY or EXCESS exists in the hair, it usually indicates that the same is happening within your body.

Hair Mineral Analysis is the quickest and most affordable way to determine if you have heavy metal toxicity and mineral deficiency - two of the primary drivers of disease today. The truth is: reaching your optimal potential for energy, vitality, emotional health and longevity, takes knowing your imbalances and working

## Testimonial

“ It's been almost 10 months now and I am off any medication. I have so much energy and I do not have anxiety and depression anymore. No blood test or any other test ever found anything wrong with me, every time I went I doctor I was disappointed to hear everything looks fine and results look okey its all in your head. I wish a lot of people were aware of this program which can actually save their lives. The splplements are worth every penny. ”

“ Crossida is great to talk to she is a wealth of knowledge and always answers every question thoroughly. I never feel like our conversations are rushed she spends time listening and explaining everything so that you really understand what's going on the body. I would recommended to anyone who wants to improve their health to do this program. ”

“ My achiness, wired energy, negative thoughts, depression, anxiety, sleep disturbances and insomnia, heavy periods, hair loss and cellulite all disappeared for the most part. I believe my sister would be here today if I found NB sooner so my journey is bittersweet. ”

## Signs you may have mineral imbalance and heavy metal toxicity:

Depression	●	Thyroid Disturbance
Hypoglycaemia	●	Digestive Disorders
Hyperactivity	●	Diabetes
Sugar issues	●	Adrenal Fatigue
Headaches	●	Hypertension
Musculoskeletal Disorders	●	Cardiovascular Disease
Emotional Problems	●	Tooth demineralisation
Gum disease	●	Hair loss
Lethargy and Fatigue	●	Menstrual Problems
Anaemia	●	Arthritis
Allergies	●	Low sex Drive
Joint and muscle pain or weaknesses	●	

## Benefits

- ✓ You'll learn exactly which heavy metals you have
- ✓ You'll see your mineral deficiencies and which minerals you need (or don't need) to supplement.
- ✓ You'll see your mineral toxicities (yes, some minerals can be toxic in excess!)
- ✓ You'll discover which minerals and nutrients are out of balance (the ratios can be just as important as the levels)
- ✓ And you'll discover EXACTLY why you haven't been able to thrive or get the results you want (yet)
